IBRO Publications Committee

Chairman, A. D. SMITH; M. ITO, E. R. KANDEL, P. G. KOSTYUK, K. KRNJEVIĆ, R. LLINÁS, D. RICHTER.

Aims and Scope:

Neuroscience publishes papers describing the results of original research on any aspect of the scientific study of the nervous system. Since one of the chief aims of the journal is to promote communication between neuroscientists, the type of paper most suitable for publication is that in which new observations are clearly and succinctly reported and in which the purpose of the study is made meaningful to scientists of other disciplines. Any paper, however short, will be considered for publication provided that it reports significant, new and carefully confirmed findings with full experimental details. For *Instructions to Authors* see Vol. 28, No. 1, pp. i–iii.

Production Editor: A. M. LUSTY. *Editorial Assistant:* S. J. RUSSELL.

Publishing, Subscription and Advertising Offices: Headington Hill Hall, Oxford OX3 0BW (Oxford 64881).
Published eighteen per annum (six volumes 1989).
Annual institutional rate (1989) *DM* 3100.
Two-year institutional rate (1989/90) *DM* 5890.
Personal subscription rate for those whose library subscribes at the regular rate (1989) *DM* 231.
Prices are subject to change without notice.
Members of the International Brain Research Organization may order personal subscriptions at a concessional rate and details of these rates are available on request. Airmail Subscription extra. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A., and for the remainder of the world to: Pergamon Press plc, Headington Hill Hall, Oxford OX3 0BW, U.K.

Back issues of all previously published volumes are available direct from Pergamon Press. Back issues of Pergamon journals in microform can be obtained from: UMI, 300 North Zeeb Road, Ann Arbor, MI 48106, U.S.A.

LIST OF CONTENTS

VOLUME 29 NUMBER 1 1989

COMMENTARY

J.-M. Trifaró, S. Fournier and **M. L. Novas** — The p65 protein is a calmodulin-binding protein present in several types of secretory vesicles — 1

RESEARCH PAPERS

S. I. Walaas, G. Sedvall and **P. Greengard** — Dopamine-regulated phosphorylation of synaptic vesicle-associated proteins in rat neostriatum and substantia nigra — 9

S. A. Greenfield, S. Nedergaard, C. Webb and **M. French** — Pressure ejection of acetylcholinesterase within the guinea-pig substantia nigra has non-classical actions on the pars compacta cells independent of selective receptor and ion channel blockade — 21

D. A. Kristt — Acetylcholinesterase in immature thalamic neurons: relation to afferentation, development, regulation and cellular distribution — 27

A. Louilot, M. Le Moal and **H. Simon** — Opposite influences of dopaminergic pathways to the prefrontal cortex or the septum on the dopaminergic transmission in the nucleus accumbens. An *in vivo* voltammetric study — 45

A. Gratton, B. J. Hoffer and **G. A. Gerhardt** — *In vivo* electrochemical studies of monoamine release in the medial prefrontal cortex of the rat — 57

A. Cowey, P. Stoerig and **V. H. Perry** — Transneuronal retrograde degeneration of retinal ganglion cells after damage to striate cortex in macaque monkeys: selective loss of Pβ cells — 65

J. G. Bjaalie — The corticopontine projection from area 20 and surrounding areas in the cat: terminal fields and distribution of cells of origin as compared to other visual cortical areas — 81

J. G. Bjaalie and **P. Brodal** — Visual pathways to the cerebellum: segregation in the pontine nuclei of terminal fields from different visual cortical areas in the cat — 95

V. Perciavalle, S. Berretta and **R. Raffaele** — Projections from the intracerebellar nuclei to the ventral midbrain tegmentum in the rat — 109

F. G. Williams and **A. J. Beitz** — A quantitative ultrastructural analysis of neurotensin-like immunoreactive terminals in the midbrain periaqueductal gray: analysis of their possible relationship to periaqueductal gray–raphe magnus projection neurons — 121

M. V. Ugrumov, J. Taxi, A. Tixier-Vidal, J. Thibault and **M. S. Mitskevich** — Ontogenesis of tyrosine hydroxylase-immunopositive structures in the rat hypothalamus. An atlas of neuronal cell bodies — 135

M. V. Ugrumov, A. Tixier-Vidal, J. Taxi, J. Thibault and **M. S. Mitskevich** — Ontogenesis of tyrosine hydroxylase-immunopositive structures in the rat hypothalamus. Fiber pathways and terminal fields — 157

F. A. Antoni and **E. A. Linton** — Immunocytochemical detection of corticotropin-releasing factor: multiple cross-reactions of a widely used carboxy-terminally directed corticotropin-releasing factor antiserum (code rC70) in rat hypothalamus — 167

G. Székely, I. Nagy, E. Wolf and **P. Nagy**	Spatial distribution of pre- and postsynaptic sites of axon terminals in the dorsal horn of the frog spinal cord	175
G. Simonnet, M. Allard, P. Legendre, J. Gabrion and **J. D. Vincent**	Characteristics and specific localization of receptors for atrial natriuretic peptides at non-neuronal cells in cultured mouse spinal cord cells	189
C.-S. Li, H. Kaba, H. Saito and **K. Seto**	Excitatory influence of the accessory olfactory bulb on tuberoinfundibular arcuate neurons of female mice and its modulation by oestrogen	201
J. Hsiang, A. Heller, P. C. Hoffmann, W. C. Mobley and **B. H. Wainer**	The effects of nerve growth factor on the development of septal cholinergic neurons in reaggregate cell cultures	209
M. Réthelyi, C. B. Metz and **P. K. Lund**	Distribution of neurons expressing calcitonin gene-related peptide mRNAs in the brain stem, spinal cord and dorsal root ganglia of rat and guinea-pig	225
SOFTWARE SURVEY SECTION		1

VOLUME 29 NUMBER 2 1989

COMMENTARY		
D. H. Small	Acetylcholinesterases: zymogens of neuropeptide processing enzymes?	241
RESEARCH PAPERS		
F. Javoy-Agid, B. Scatton, M. Ruberg, R. L'Heureux, P. Cervera, R. Raisman, J.-M. Maloteaux, H. Beck and **Y. Agid**	Distribution of monoaminergic, cholinergic, and GABAergic markers in the human cerebral cortex	251
C. Vidal and **J.-P. Changeux**	Pharmacological profile of nicotinic acetylcholine receptors in the rat prefrontal cortex: an electrophysiological study in a slice preparation	261
R. Quirion, D. Araujo, W. Regenold and **P. Boksa**	Characterization and quantitative autoradiographic distribution of [^{3}H]acetylcholine muscarinic receptors in mammalian brain. Apparent labelling of an M_2-like receptor sub-type	271
J. M. Delgado-García, P. P. Vidal, C. Gómez and **A. Berthoz**	A neurophysiological study of prepositus hypoglossi neurons projecting to oculomotor and preoculomotor nuclei in the alert cat	291
M. Carli, G. H. Jones and **T. W. Robbins**	Effects of unilateral dorsal and ventral striatal dopamine depletion on visual neglect in the rat: a neural and behavioural analysis	309
N. W. Kowall, W. W. Pendlebury, J. B. Kessler, D. P. Perl and **M. F. Beal**	Aluminum-induced neurofibrillary degeneration affects a subset of neurons in rabbit cerebral cortex, basal forebrain and upper brainstem	329
M. F. Beal, M. F. Mazurek, D. W. Ellison, N. W. Kowall, P. R. Solomon and **W. W. Pendlebury**	Neurochemical characteristics of aluminum-induced neurofibrillary degeneration in rabbits	339
A. Pelchen-Matthews and **J. O. Dolly**	Distribution in the rat central nervous system of acceptor sub-types for dendrotoxin, a K^+ channel probe	347
M. Savasta, E. Ruberte, J. M. Palacios and **G. Mengod**	The colocalization of cholecystokinin and tyrosine hydroxylase mRNAs in mesencephalic dopaminergic neurons in the rat brain examined by *in situ* hybridization	363

N. C. Day, M. D. Hall and **J. Hughes**	Modulation of hypothalamic cholecystokinin receptor density with changes in magnocellular activity: a quantitative autoradiographic study	371
J. W. Witkin	Synaptology of luteinizing hormone-releasing hormone neurons in the preoptic area of the male rat: effects of gonadectomy	385
R. Moratalla, M. Vallejo and **S. L. Lightman**	*In vivo* stimulation of phosphoinositide metabolism in the brainstem of rats following osmotic stress	391
J. Garthwaite and **A. R. Brodbelt**	Synaptic activation of *N*-methyl-D-aspartate and non-*N*-methyl-D-aspartate receptors in the mossy fibre pathway in adult and immature rat cerebellar slices	401
P. Kontro and **S. S. Oja**	Release of taurine and GABA from cerebellar slices from developing and adult mice	413
I. Holopainen, P. Kontro and **S. S. Oja**	Release of taurine from cultured cerebellar granule cells and astrocytes: co-release with glutamate	425
B. J. Morris and **A. Herz**	Control of opiate receptor number *in vivo*: simultaneous κ-receptor down-regulation and μ-receptor up-regulation following chronic agonist/antagonist treatment	433
A. Baskys, C. E. Niesen, M. F. Davies and **P. L. Carlen**	Modulatory actions of serotonin on ionic conductances of hippocampal dentate granule cells	443
A. Jackowski, A. Crockard and **G. Burnstock**	5-Hydroxytryptamine demonstrated immunohistochemically in rat cerebrovascular nerves largely represents 5-hydroxytryptamine uptake into sympathetic nerve fibres	453
J. V. Johnson, K. C. F. Fone, M. E. Havler, I. F. Tulloch, G. W. Bennett and **C. A. Marsden**	A comparison of the motor behaviours produced by the intrathecal administration of thyrotrophin-releasing hormone and thyrotrophin-releasing hormone analogues in the conscious rat	463
M. A. Hernández, J. Avila, F. Moya and **C. Alberto**	Rearrangement of microtubule associated protein parallels the morphological transformation of neurons from dorsal root ganglion	471
L. S. Jen, Y. M. Cheung and **K. L. Chow**	The origin and terminal arbors of individual uncrossed retinogeniculate fibers in rabbits	479
Y. Koda, A. Wada, N. Yanagihara, Y. Uezono and **F. Izumi**	*cis*-Unsaturated fatty acids stimulate catecholamine secretion, tyrosine hydroxylase and protein kinase C in adrenal medullary cells	495
